

Lesson 2-2 Writing algebraic expressions

SWBAT: Write an algebraic expression from word form.

Writing an algebraic expression:

<u>Operation</u>	<u>Word Phrase</u>	<u>Algebraic expression</u>
Addition	Plus, more than, sum	
Subtraction	Minus, difference	
Multiplication	Times, product of	
Division	Quotient, divided by	

Write the algebraic expression for:

- The product of 7 and m
- 2 more than x
- 9 less than y
- The quotient of 32 and h

Brandon is 28 years younger than his father. Write an expression for his fathers age. Use B for Brandon, and F for father.

Write an expression from this table:

X		X		X		X		X	
2	6	-3	-5	1	3	20	4	3	14
5	9	4	2	2	5	30	6	4	17
7	11	9	7	3	7	40	8	5	20
				4	9	50	10	20	65
				10	21
