Instructions:

Each week has its own instructions. If you have any questions about them, please email me ASAP.

Expectations:

Because the logistics of grading could easily become very challenging, it is SUPER important that you follow all of the instructions for the submission of your work very carefully. Thank you!

All work that you submit must be your OWN work (not translators, coping...). If you are having trouble with a task, please contact me ASAP.

Note:

When signing up to Garbanzo and Yabla, make sure you use the links on Google classroom. This is the only way I can verify that you have done the work.
